IDENTIFIERS	*Maryland

ABSTRACT

This report presents tables detailing enrollment data for fall 1998 at Maryland's public and independent colleges and universities. Highlights include: (1) total headcount enrollment increased by 3,000 to 264,802, which was the greatest one-year increase since 1990; (2) nearly all the increase was due to a sharp rise in number of full-time undergraduates (116,353); (3) new full-time freshmen increased by 5.6 percent to 29,055; (4) part-time graduate and professional enrollment grew 4.4 percent while full-time graduate and professional enrollment remained the same; (5) total headcount enrollment growth was greatest at the independent colleges and universities, where the number of students rose by 3.8 percent; (6) among community colleges, 11 gained enrollment and 7 lost; and (7) women continued to outnumber men, comprising 58 percent of all students. Specific tables present enrollment trends 1978-98; first-time full-time freshmen data; and opening fall enrollments by institution, student status (full-time, part-time), and student category (undergraduate, graduate, first professional, men, women, and first-time full-time freshmen). These are highlights of the fall 1998 enrollment figures submitted by the State's colleges and universities. These numbers may change very slightly due to students enrolling or dropping out by November 15, the last date in which 1998 enrollment figures are reported to the Maryland Higher Education Commission.

- **Total headcount enrollments at Maryland's colleges and universities experienced their greatest one-year increase since 1990, rising more than 3,000 students to 264,802. However, enrollments at Maryland campuses still have not regained their highs set in 1992.**

- **Nearly all of the increase was due to a sharp jump in the number of full-time undergraduates to a record high of 116,353. Full-time undergraduates increased for the fifth consecutive year, rising 2.7 percent from last year and 8 percent since 1993. In contrast, part-time undergraduates fell for the seventh straight year to 99,856, declining nearly 1 percent in the past year and 15 percent since 1991. Part-time undergraduate enrollment is at its lowest level since 1981.**

- **New full-time freshmen grew strongly, rising by 5.6 percent to a record high of 29,055. There were increases at all of the sectors of higher education: 7.7 percent at the independent colleges and universities, 6.7 percent at the public four-year campuses, and 3.6 percent at the community colleges. Since 1990, new full-time freshmen in Maryland have steadily increased by 21 percent.**

- **Part-time graduate and professional enrollments had a strong year, jumping 4.4 percent. The number of full-time graduate/professional students remained virtually the same.**

- **Total headcount enrollment growth was greatest at the independent colleges and universities, where the number of students rose by 3.8 percent. Four-year public campuses experienced an increase of 1.2 percent. However, there was almost no change in the number of students at the community colleges.**

- **There were variations within higher education sectors. Among community colleges, 11 gained enrollment and 7 lost. Two of the three institutions marked for greatest growth by the University System of Maryland (Towson and Coppin) had among the highest enrollment increases. However, the number of students at University of Maryland Eastern Shore was virtually unchanged. University of Maryland Baltimore, which has predominately graduate and professional enrollments, experienced a 4.6 percent drop in the past year. The number of students at Morgan State University exceeded the average for public four-year campuses by climbing nearly 3 percent in the past year.**

- **Women continued to outnumber men, comprising 58 percent of all students.**
